

Product Information

Parishin A

Cat No: 26665 - 500 µg

General Data

Shipping: dry ice

Formulation: A crystalline solid

Purity: ≥98%

Product Overview

Parishin A is a phenolic glycoside originally isolated from *G. elata* that has lifespan extending and antioxidant activities. It increases the replicative lifespan of *S. cerevisiae* when used at concentrations ranging from 3 to 30 µM. Parishin A (3-30 µM) also increases superoxide dismutase (SOD) activity, decreases malondialdehyde (MDA) levels, and inhibits hydrogen peroxide-induced cell death in yeast. In vivo, parishin A is metabolized to gastrodin, p-hydroxybenzyl alcohol, parishin B, and parishin C (Item No. 25127).
