

Product Information

MMP-13 Inhibitor

Cat No: 19540 - 1 mg

General Data

Shipping:	dry ice
Formulation:	A crystalline solid
Purity:	≥98%

Product Overview

MMP-13 Inhibitor is a pyrimidine dicarboxamide that inhibits matrix metalloproteinase-13 (MMP-13, also known as collagenase-3) with an IC₅₀ value of 8 nM. MMP-13 Inhibitor binds to pockets that are unique to MMP-13, rather than the catalytic zinc, and thus is specific for MMP-13 over other MMPs. MMP-13 Inhibitor blocks osterix-dependent calcification of matrices in limb bud cells during endochondral ossification.
