

Drug Metabolite Certified Reference Materials

Drug metabolites play a major role in identifying, confirming, and quantifying drugs of abuse. They are often the only remaining evidence of a rapidly metabolized drug, and their predictive fragmentation patterns provide much needed clues for identifying unknowns. Cayman Chemical offers Certified Reference Materials (CRMs) for many of the major metabolites of fentanyl and other illicit opioids, benzodiazepines, stimulants, and cannabinoids. Our CRMs meet ISO/IEC 17025:2005 and ISO Guide 34:2009 guidelines and are sold as quantitative solutions in sealed ampules.

ACCREDITED
ISO/IEC 17025 #AT-1773
ISO Guide 34 #AR-1774

Fentanyl Metabolite CRMs

Item No.	Product Name
ISO60130	Acetyl norfentanyl (hydrochloride) (CRM)
22700	4-ANPP (CRM)
19561	Butyryl norfentanyl (hydrochloride) (CRM)
19559	Furanyl norfentanyl (hydrochloride) (CRM)
19736	β -Hydroxythiofentanyl (hydrochloride) (CRM)
20205	Isobutyryl norfentanyl (CRM)
22182	Norcarfentanil (hydrochloride) (CRM)
ISO60195	Norfentanyl (CRM)

Common fentanyl metabolites listed, parent compounds and their internal standards available online

Non-Fentanyl Opioid Metabolite CRMs

Item No.	Product Name
19418	6-Acetylmorphine (CRM)
18751	O-Desmethyl-cis-tramadol (hydrochloride) (CRM)
ISO60142	Dihydrocodeine (CRM)
ISO60144	Hydrocodone (CRM)
ISO60146	Hydromorphone (CRM)
18790	6 β -Naltrexol (CRM)
20127	Norbuprenorphine (CRM)
22661	Norhydrocodone (hydrochloride) (CRM)
20899	Normeperidine (hydrochloride) (CRM)
ISO60171	Oxymorphone (CRM)

Common non-fentanyl metabolites listed, parent compounds and their internal standards available online

Benzodiazepine Metabolite CRMs

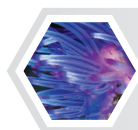

Item No.	Product Name
20225	7-Aminoclonazepam (CRM)
19053	7-Aminoflunitrazepam (CRM)
19293	7-Aminonimetazepam (CRM)
19698	Desalkylflurazepam (CRM)
18888	N-Desmethyloclobazam (CRM)
23982	N-Desmethyflunitrazepam (CRM)
ISO60174	Nordiazepam (CRM)
ISO60173	Oxazepam (CRM)

Common benzodiazepine metabolites listed, parent compounds and their internal standards available online

Cannabinoid Metabolite CRMs

Item No.	Product Name
17771	AB-FUBINACA metabolite 3 (CRM)
19197	5-fluoro AMB metabolite 5 (CRM)
19107	5-fluoro AMB metabolite 6 (CRM)
18789	5-fluoro AMB metabolite 7 (CRM)
18182	MAB-CHMINACA metabolite M1 (CRM)
21667	(\pm)-11-hydroxy- Δ^9 -THC (CRM)
20754	(\pm)-11-nor-9-carboxy- Δ^9 -THC (CRM)
19431	THJ2201 N-(5-hydroxypentyl) metabolite (CRM)
18159	THJ2201 N-pentanoic acid metabolite (CRM)
17727	XLR11 N-(4-hydroxypentyl) metabolite (CRM)

Common cannabinoid metabolites listed, parent compounds and their internal standards available online
